Notes to the Condensed Consolidated Interim Financial Statements  
For the three-month periods ended March 31, 2021 and 2020  
(Unaudited, expressed in Canadian Dollars)

---

## 1. Nature of activities and going concern

Osisko Metals Incorporated (“Osisko Metals”) and its subsidiaries (collectively, the “Company”) specialize in the exploration and evaluation of base metals properties located in Canada. The address of the Company’s registered office and its principal place of business is 1100, avenue des Canadiens-de-Montréal, Suite 300, Montréal, Québec, Canada.

The Company was incorporated under the provisions of the *Business Corporations Act* (Alberta) on May 10, 2000. Since May 2017, the Company is registered under the *Business Corporation Act* (British Columbia).

The Company’s shares are listed under the symbol “OM” on the TSX Venture Exchange (“TSX-V”), under the symbol “OB5” on the Frankfurt Stock Exchange and under the symbol “OMZNF” on the OTCQX Best Market (the “OTCQX”).

Until it is determined that properties contain mineral reserves or resources that can be economically mined, they are classified as exploration and evaluation properties. The recoverability of deferred exploration and evaluation expenses is dependent on the discovery of economically recoverable reserves and resources; securing and maintaining title and beneficial interest in the properties; the ability to obtain necessary financing to continue the exploration, evaluation and development of its properties; and obtaining certain government approvals or proceeds from the disposal of properties. Changes in future conditions could require material impairment of the carrying value of the deferred exploration and evaluation expenses. Although the Company has taken steps to verify title to its mining properties on which it is currently conducting exploration and evaluation work, in accordance with industry standards for the current stage of exploration and evaluation of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. In assessing whether the going concern assumption is appropriate, Management of the Company (“Management”) takes into account all available information about the future, which is at least, but not limited to twelve months from the end of the reporting period. As at March 31, 2021, the Company had working capital of \$1,958,936 (including a cash balance of \$4,065,440), an accumulated deficit of \$36,700,450 and had incurred a loss of \$599,664 for the three-month period ended March 31, 2021. As the Company is in the exploration and evaluation stage for its projects, it has not recorded any revenues from operations and has no source of operating cash flow.

The working capital as at March 31, 2021 will not be sufficient to meet the Company’s obligations, commitments and budgeted expenditures through March 31, 2022 (see Note 12). Management is aware, in making its assessment, of material uncertainties related to events and conditions that may cast a significant doubt upon the Company’s ability to continue as a going concern as described in the preceding paragraph, and accordingly, the appropriateness of the use of accounting principles applicable to a going concern. These condensed consolidated interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities, expenses and balance sheet classifications that would be necessary if the going concern assumption was not appropriate. These adjustments could be material.

The duration and full financial effect of the COVID-19 pandemic is unknown at this time. Any estimate of the length and severity of these developments is therefore subject to significant uncertainty, and accordingly estimates of the extent to which the COVID-19 may materially and adversely affect the Company’s operations, including suppliers, service providers, employees and on global financial markets limiting our ability to access financing are also subject to significant uncertainty. The Company is monitoring developments in order to be in a position to take appropriate action.

The Company’s ability to continue future operations and fund its planned exploration activities at its projects is dependent on Management’s ability to secure additional financing in the future. Any funding shortfall may be met in the future in a number of ways, including, but not limited to, selling a royalty on its projects (see Note 5) and the issuance of debt or equity instruments (see Note 12). While Management has been successful in securing financing in the past, there can be no assurance that it will be able to do so in the future or that these sources of funding or initiatives will be available to the Company or that they will be available on terms which are acceptable to the Company. If Management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than the amounts reflected in these condensed consolidated interim financial statements.

# Osisko Metals Incorporated

Notes to the Condensed Consolidated Interim Financial Statements

For the three-month periods ended March 31, 2021 and 2020

(Unaudited, expressed in Canadian Dollars)

## 2. Basis of presentation

These unaudited condensed consolidated interim financial statements have been prepared on a historical cost basis except for the revaluation of certain financial instruments to fair value. In addition, these unaudited condensed consolidated interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These unaudited condensed consolidated interim financial statements have been prepared in accordance with *International Financial Reporting Standards* as issued by the *International Accounting Standards Board* ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standard 34, *Interim Financial Reporting*. The unaudited condensed consolidated interim financial statements should be read in conjunction with the audited annual consolidated financial statements of the Company for the year ended December 31, 2020, which have been prepared in accordance with IFRS.

These unaudited condensed consolidated interim financial statements were approved by the Company's Board of Directors on May 17, 2021.

These unaudited condensed consolidated interim financial statements include the accounts of Osisko Metals and its wholly-owned subsidiaries listed below:

<b>Name of subsidiary</b>	<b>Activity</b>	<b>Country of Incorporation</b>
Bowmore Exploracion de Mexico S.A. de C.V.	Inactive	Mexico
Pine Point Mining Limited ("Pine Point")	Mineral exploration in Northwest Territories	Canada
Karst Investments LLC ("Karst")	Inactive, wound up on January 14, 2020	USA
Bowmore O & G Inc.	Inactive	Canada

Osisko Metals controls a subsidiary if it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary. All intercompany balances and transactions are eliminated on consolidation. Osisko Metals and its subsidiaries have a year end of December 31.

## 3. Judgments, estimates and assumptions

The preparation of financial statements requires Management to make judgments, estimates and assumptions on reported amounts of assets and liabilities, and reported amounts of expenses. The estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may be substantially different. The critical accounting, judgments, estimates and assumptions are the same as those in our most recent audited annual financial statements.

## 4. Investments

As at March 31, 2021, the Company holds short-term investments of \$116,653 (\$117,317 as at December 31, 2020) composed of guaranteed deposit certificates with a maturity less than twelve months.

The Company holds marketable securities in quoted mining exploration companies. As at March 31, 2021, these non-current investments total \$19,148 (\$22,872 as at December 31, 2020). These non-current investments are measured at fair value and changes in fair value are recognized in the net loss for the period.

During the three-month period ended March 31, 2021, the Company recorded an unrealized loss of \$3,724 in other comprehensive income (an unrealized loss of \$70,963 during the three-month period ended March 31, 2020) in relation to these marketable securities.

- (a) Quebec Genex: The Company's Quebec Genex Project includes, among others, its claims at Ascension, Wallace, Kempt and Montauban.
- (b) Other properties in Quebec: Most of these other properties in Quebec are subject to a net smelter return ("NSR") royalty with Osisko Gold Royalties Ltd ("OGR") (the "OGR Royalty"), a related party (see Note 9), which is described in note (i).
- (c) Gilmour South, New-Brunswick: This property is located 20 km south-southeast of the Brunswick No. 12 Mine and is subject to the OGR Royalty (i). In accordance with an option agreement signed on March 7, 2017, the Company may acquire a 100% interest in this property (in addition to the Flat Landing Brook and Louvicourt properties) in exchange for:
- Cash payments totaling \$216,000 over a period of 5 years following the signing of this agreement. \$45,000 was paid in the three-month period ended March 31, 2021 (\$126,000 was paid as at December 31, 2020); and
  - Issuance of 190,000 common shares of the Company (each a "Common Share") over a period of 5 years following the signing of this agreement. In the three-month period ended March 31, 2021, 34,998 Common Shares (\$14,699) were issued (119,996 Common Shares were issued as at December 31, 2020, with a value of \$58,324).

# Osisko Metals Incorporated

Notes to the Condensed Consolidated Interim Financial Statements

For the three-month periods ended March 31, 2021 and 2020

(Unaudited, expressed in Canadian Dollars)

## 5. Exploration and evaluation assets (continued)

- (d) Key Anacon, New-Brunswick: This project is located 20 km south of Bathurst, New-Brunswick and is partially subject to the OGR Royalty (i).
- (e) Canadian Continental, New-Brunswick: This project is partially subject to the OGR Royalty (i).
- (f) Mount Fronsac, New-Brunswick: This property is subject to the OGR Royalty (i). In addition to existing claims owned by the Company, the acquisition in this project is composed of the following transaction:
- i. In accordance with an option agreement signed on June 28, 2017, the Company may acquire a 100% interest in 32 additional claim units of this project in exchange for:
    - Cash payments totaling \$300,000 over a period of 4 years following the signing of this agreement. As at March 31, 2021 and December 31, 2020, \$200,000 was paid; and
    - Issuance of 200,000 Common Shares over a period of 4 years following the signing of this agreement. As at March 31, 2021 and December 31, 2020, 133,336 Common Shares were issued with a value of \$88,668.
- (g) Other properties in the Bathurst Mining Camp (“BMC”): The other New Brunswick properties are located in the BMC and are subject to the OGR Royalty (i).
- (h) On February 23, 2018, the Company acquired all of the issued and outstanding common shares of Pine Point which holds the Pine Point property located near Hay River in the Northwest Territories (the “Pine Point Property”).

Pine Point had an option agreement with Karst to purchase a 50% interest in a 3% NSR royalty held by Karst on the Pine Point Property (the “Option”). To keep the Option in force, annual payments of US\$75,000 were made on each anniversary of this agreement. The Option was exercisable at any time, prior to Pine Point’s commercial production, by paying US\$3,000,000, less the prepaid amounts.

On December 17, 2019, the Company closed the acquisition of Karst in exchange for an aggregate consideration of US\$8,500,000 (\$11,209,000) and 2,000,000 common shares (\$810,000) of the Company. Karst had no significant assets and liabilities other than said 3% NSR royalty. The total cost to repurchase the 3% NSR was \$12,392,049 and is capitalized in exploration and evaluation assets in the consolidated statement of financial position.

- (i) On October 12, 2017, the Company concluded an agreement with OGR whereby OGR acquired a 1% NSR royalty on nearly all of the Company’s portfolio of projects within both the BMC and Quebec, as at the date of this agreement, for a cash consideration of \$5,000,000. The OGR Royalty will also apply to areas that the Company may acquire in the future that fall within a one-kilometer distance from the property holdings at the time of this agreement. OGR has rights of first refusal on future royalty or metal stream sales from existing or newly acquired properties by the Company.
- (j) On January 23, 2020, the Company concluded an agreement with OGR (the “Sales Agreement”) to sell a 1.5% NSR royalty on the Pine Point Property, for cash consideration of \$6,500,000 (the “NSR Sale”). Pursuant to the terms of the Sales Agreement, in connection with the NSR Sale, the Company granted to OGR a right of first offer on any future sales by the Company of any additional royalties, streams or similar interests on the Pine Point Project. The proceeds from this transaction were recorded as a reduction to the exploration and evaluation assets in the consolidated statement of financial position at the Sales Agreement date. The Sales Agreement was amended on December 30, 2020 (the “NSR Amendment”). Pursuant to the NSR Amendment, the Company granted an additional 0.5% NSR royalty to OGR on the Pine Point Project for \$6,500,000, which resulted in OGR holding a combined 2% NSR royalty on the Pine Point Project.

## 6. Warrants

The following table details the changes in the Company’s warrants issued to shareholders:

	Number of warrants	Weighted average exercise price (\$)
Balance – January 1, 2020	3,500,000	0.52

Balance – March 31, 2021	14,242,566	0.79
Options exercisable – March 31, 2021	8,528,909	0.99

The Options, when granted, are accounted for at their fair value determined by the Black-Scholes option pricing model based on the following weighted average assumptions for the three-month period ended March 31, 2021:

Share price at date of grant	\$0.44
Exercise price at date of grant	\$0.44
Risk-free interest rate	0.42%
Expected life of options	5.0 years
Annualized expected volatility	60%
Dividend rate	0%
Weighted average fair value per option	\$0.22

The expected volatility was determined by calculating the “historical” volatility of the Company’s common share price back from the date of the grant and for a period corresponding to the expected life of the Options. When computing historical volatility, Management may disregard an identifiable period of time in which it considers that the share price was extraordinarily volatile because of a specific event that is not expected to recur during the expected life of the Option.

Share-based compensation for the three-month period ended March 31, 2021 amounted to \$165,911 (\$246,217 for the three-month period ended March 31, 2020) of which \$7,218 (\$20,333 for the three-month period ended March 31, 2020) were capitalized to exploration and evaluation assets.

## 8. Net loss per share

As a result of the net loss for the three-month periods ended March 31, 2021 and 2020, all potentially dilutive common shares (Notes 6 and 7) are deemed to be antidilutive and thus diluted net loss per share is equal to the basic net loss per share for these periods.

For the three-month periods ended March 31, 2021 and 2020

(Unaudited, expressed in Canadian Dollars)

## 9. Key management and related party transactions

Key management includes directors (executive and non-executive) and officers of the Company. The compensation paid or payable to key management for employee services for the three-month periods ended March 31, 2021 and 2020 are:

	2021	2020
	\$	\$
Salaries and short-term employee benefits	176,750	234,940
Share-based compensation	133,224	206,771
	<u>309,974</u>	<u>441,711</u>

During the three-month periods ended March 31, 2021 and 2020, the Company undertook transactions with certain related companies. OGR is a related party because it has a significant influence on the Company due to the number of shares held and common officers and directors. Osisko Mining Inc. ("OSK") and Falco Resources Ltd. ("FPC") are related parties because of common officers and directors.

During the three-month period ended March 31, 2021, an amount of \$32,000 (\$210,000 for the three-month period ended March 31, 2020) was invoiced by OGR for professional services and rental of offices. An amount of \$11,000 is included in accounts payable and accrued liabilities as at March 31, 2021 (\$320,000 as at December 31, 2020).

During the three-month period ended March 31, 2021, an amount of \$3,000 (\$43,000 for the three-month period ended March 31, 2020) was invoiced by OSK in relation to professional corporate and exploration services rendered. An amount of \$2,000 is included in accounts payable and accrued liabilities as at March 31, 2021 (\$5,000 as at December 31, 2020).

During the three-month period ended March 31, 2021, an amount of \$28,000 (\$55,000 for the three-month period ended March 31, 2020) was invoiced by FPC for professional services, of which \$32,000 is included in trade and other payables as at March 31, 2021 (\$60,000 as at December 31, 2020).

## 10. Fair value of financial instruments

Financial instruments measured at fair value

The following presents financial assets and liabilities measured at fair value in the statement of financial position in accordance with the fair value hierarchy.

This hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities at the reporting date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for assets or liabilities that are not based on observable data (unobservable inputs).

The fair value of the investments in shares have been estimated by reference to their quoted prices at the reporting date. Investments measured at fair value in the statement of financial position as at March 31, 2021 and December 31, 2020 are classified in level 1.
